INDEX

Analysis, determination of low level exposure to parathion 134
GLC of DDA 186
quantitative method for hydroxylated PCB's 315
separation of sulfur from insecticides 108
stainless steel apparatus for residue analysis 20
Apparatus, stainless steel for residue analysis 20
Aqueous cadmium, effect on rat growth 271
Arsenic, production of trimethylarsine gas by fungi 84
Behavior, avoidance of pesticides by shrimp 129
Birds, DDE interference of salt excretion in mallard 49
dieldrin and calcium deposition in chicks 351
effects of various agents on dieldrin residues in the hen 197
effects of PCB's in 261
estrogenic effect of methoxychlor in chicken 234
induced decrease in quail liver vitamin A 179
pesticidal synergism in 250
quantitation of residues in eggs of wild 193
thickness of American woodcock eggshell, 1971 281
Cadmium, accumulation and toxicity in a plant 100
aqueous & dietary, effect on rat growth 271
Chemosterilants, histopathology and histochemistry of insects treated with 218
DDE content of human milk from Arizona 169
interference in salt excretion in mallard 49
in vivo binding to human serum proteins 70
DDT and DDE in human milk 169
and implanted ova in the mouse 267
apparent increase in wafered hay 173
in forest soil 57
residues in Norwegian cod 89
uptake and accumulation by *Ephemera danica* 345
Eggs, quantitation of residues in wild bird 193
Eggshell thickness of American woodcock, 1971 281
Enzyme activity; hepatic activity increased by mercury 10
inhibition of mixed function oxidase, by carbon monoxide 329
quality control in cholinesterase determinations 24
Enzymes, effect of SKF 525A on parathion inhibition of 140
induction after administration of heptachlor 156
Fish, DDT in Norwegian cod 89
effect of mercury on dogfish feti 276
of SKF 525A on parathion enzyme inhibition 140
hydrolysis of polyoxyethylene esters by tissues of 212
insecticide resistence in mosquito fish 15
Hepatoxin, isolation of luteoskyrin 312
Herbicides and oxygen evolution of phytoplankton 291
effects of atrazine on reproduction in rats 296
effects of Dacthal and Sesone on residues in strawberry 305
Human milk from Arizona, DDT and DDE in 169
PCB's in, from Colorado 222
Hydrocarbons and PCB contamination of plankton nets 287
Insecticides, chlordane residues in alfalfa after soil treatment 337
determination of low level parathion exposure 134
Dieldrin and bone deposition of calcium in chicks 351
effect of casein diets on toxicity of 102
of drugs on dieldrin storage 370
of fixation on extraction from muscle 54
of pH, light, and temperature on Carbaryl 257

on wild birds 321
endrin induced cytological changes in rats 65
estrogenic effect of methoxychlor in chickens 234
fate in marine algae 116
inhibition of aldrin oxidation by Diquat 1
of microsomal metabolism by 4
in honey 143
metabolism of parathion by rats and lobsters 296
residues from Shell's No-Pest strip 227
in hens as affected by various agents 197
resistance in mosquito fish 15
response to parathion in lead eating rats 28
Light effect on Carbaryl 257
Lead content in Indian tea 124
response of rats to parathion and 28
toxicity in genetically different mice 80
Mercury concentration in coyotes and rodents 37
effect on dogfish feti 276
effects on wild birds 321
elevated levels in dentists hair 318
and geothermal pollution in New Zealand 148
increase in liver enzyme activity due to 10
Metabolism of parathion by rats and lobsters 296
Microsomal metabolism, inhibition by insecticides 4
of aldrin inhibited by Diquat 1
Mirex residues, errors introduced by isopropanol fixation 365
Molybdenum toxicity to Euglena gracilis 361
Mouse, DDT affecting the frequency of implanted ova in 267
Nitrites, methemoglobinemia produced in rats by transplacental 44
Paraquat, ocular toxicity of 163
PCB's and hydrocarbon contamination of plankton nets 287
effects in the chicken 261
on wild birds 321
induced decrease of vitamin A in rat liver 179
in human milk from Colorado 222
quantitation of hydroxylated metabolites of 315
persistence in six soils 204
pH effect on Carbaryl 257
Phenobarbital, effect on dieldrin residues in hens 197
effect on dieldrin storage 370
enzyme induction with heptachlor and 156
Plankton, chlorinated hydrocarbons from 376
differential oxygen evolution, effect of herbicides on 291
PCB's and hydrocarbon contamination of nets for 287
Soil, DDT in forest 57
persistence of PCB's in six 204
treatment with chlordane, residues in alfalfa folowing 337
Synergism, effects of Dacthal and Sesone on strawberry residues 305
effects of oil and irradiation on aquatic organism 75
tests for pesticidal, in birds 250
Rat, dieldrin storage effected by drugs in 370
effect of aqueous and dietary cadmium on growth of 271
effects of atrazine on reproduction in 301
endrin induced cytological changes in 65
metabolism of parathion in lobsters and in 296
PCB induced decrease in liver vitamin A 179
Residues, dislogeable, determination of on leaves 243
Temperature effect on carbaryl in aqueous media 257
